SAVING
SYSTEM**

Lightweight metal tubes provide superior structure and strength. By removing and disassembling the tubes, the bag can be folded for storage.

INSTRUCTIONS

- 1** Included are 2 sets of poles (2 poles with buttons, 2 with holes). Assemble each set by pressing down the button on one pole and sliding it into another with a hole. Make sure the button depresses thru the hole.
- 2** Open the backside top flap and slip assembled sets into both pockets all the way in. Seal the flap and you're off!
